HTML, CSS, JavaScript, Bootstrap, and frameworks  
such as React and Laravel

Oct 2020 - Aug 2024

Computer information System  
HTML, CSS, JavaScript, Bootstrap, and frameworks  
such as React and Laravel

## Skills &amp; projects

HTML

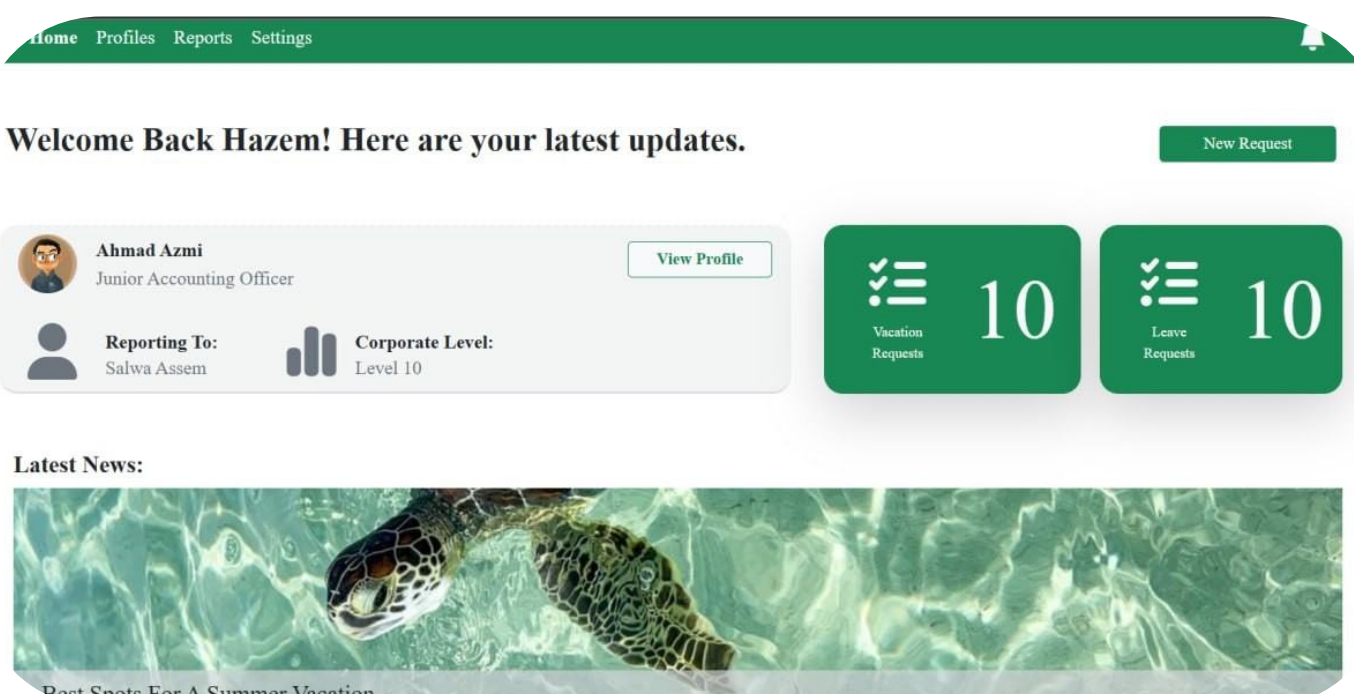

CSS

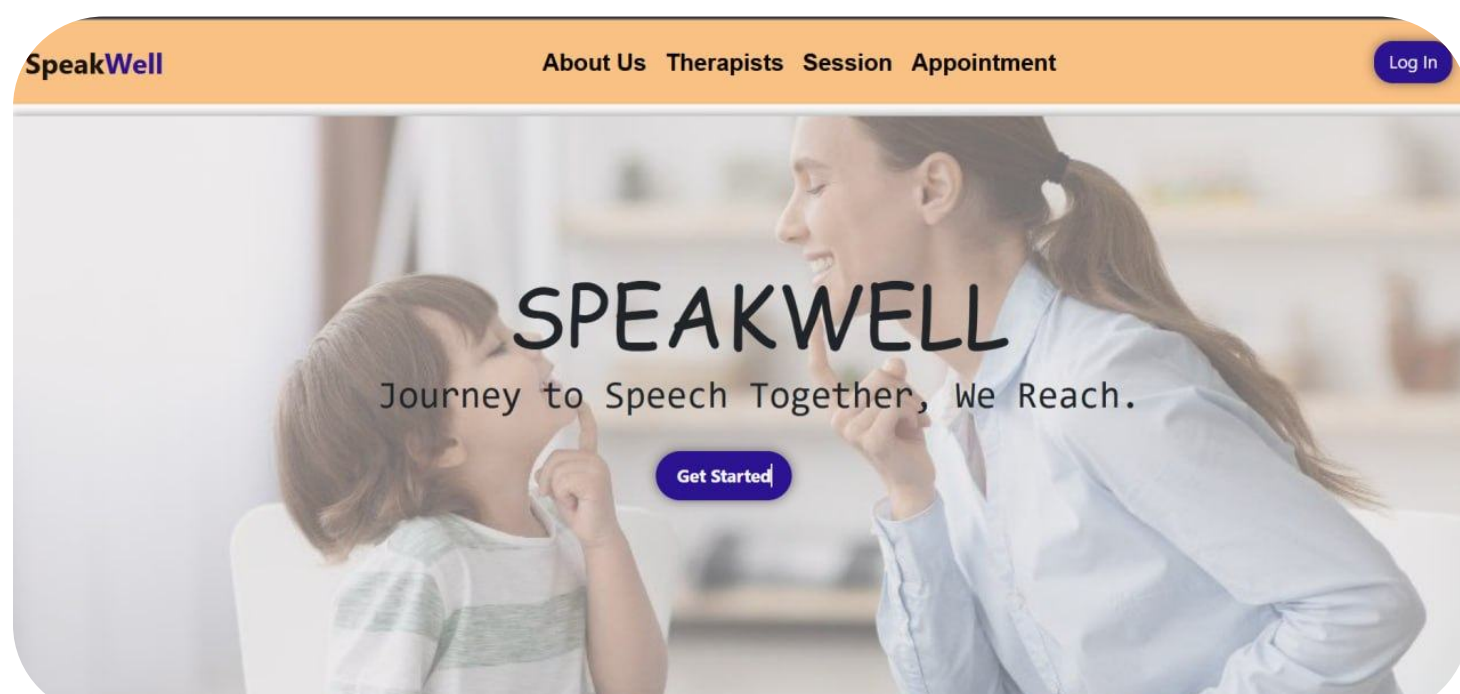

Bootstrap

Figma

## Vacation System

developed a responsive Vacation Management System using HTML, CSS,  
Bootstrap, and JavaScript. This system allows employees to easily  
submit vacation requests, view their vacation history, and track their  
remaining days. The interface is user-friendly and fully optimized for  
mobile devices, ensuring seamless navigation and functionality across  
all screen sizes.

## SpeakWell

responsive website for the Helping Kids Speak and Learn application  
using HTML, CSS, and Bootstrap. This platform is designed to provide an  
engaging and interactive learning experience for children, featuring  
vibrant visuals, intuitive navigation, and mobile-friendly layouts. The  
website effectively showcases the application's features, helping  
parents and educators understand how it supports children's language  
development and learning in a fun and accessible way
